

IAAF/Cardiff University World Half Marathon Championships - 26th March 2016

Role Description: Expo Support

You will be undertaking a vital role in supporting Cardiff's first sport, health and well being exhibition at the Motorpoint Arena in Cardiff City Centre, which is forming an integral part of the IAAF/Cardiff University World Half Marathon Championships.

The expo will not only play host to hundreds of the world's leading health and sport exhibitors but also be the venue for the 25,000 runners to collect their race packs and numbers in person as well as a seminar and education programme.

You will be based at the Expo in the Motorpoint Arena, Cardiff City Centre which runs from Thursday 23rd – Saturday 26th March 2016, from 10am – 8pm Thursday and Friday and 9am-7pm on race day. A range of volunteer shifts will be available through the event days.

This role is very fluid on the day and we need you to be flexible, moving between different tasks and Expo areas including race registration, expo floor and the education and conference programme as and when required.

Some of the tasks involved in your role are;

- Welcoming runners and spectators to Cardiff and the Expo
- Support race registration desks
- Check runners ID and distribute corresponding race pack
- Answers ad hoc questions regarding the event
- Be professional, informative and calm during busy periods
- Support the conference and education programme
- Roam the Expo arena to answer any questions and direct runners to the registration area.
- Hand out goody bags

You will be very busy on the day but everything needed to support the Expo arena areas will be waiting for you, you just need to turn up with lots of energy and enthusiasm!

As a thank you, you will get;

- Adidas volunteer uniform (Jacket and bag) to be worn on event days but yours to keep!
- Volunteer Lanyard with key information
- Food and drinks
- Training and support

By volunteering you are joining a large community of volunteers called the 'Extra Milers' who are 'Making the Diff'ERENCE' to ensure runners and spectators alike have the best experience possible on race day!

We really could not do this without you and appreciate all your time and commitment!
